

THE OPTIMUM PLAYBOOK

EVERY SCRIPT · EVERY PROCESS · EVERY OBJECTION · EVERY DOLLAR

EIGHT MODULES

1	THE PROCESS	15 steps from cold door to closed deal
2	COLD CALL	How to walk in and walk out with a card in 2 minutes
3	PHONE	The 4-step, 30-second appointment-setting call
4	THE PITCH	10 steps that turn a meeting into a free trial
5	CLOSING	"Follow the Pen" - the ritual close
6	COMP PLAN	How term, price, and bonus tiers make you wealthy
7	PRODUCTS	Five machines, two pitches, every spec you need
8	OBJECTIONS	Every "no" they'll throw and how to flip it

THE COMPLETE SALES PROCESS

Every deal you ever close at Optimum follows the same 15-step path. Master the order. Skip a step and the deal dies.

STAGE	STEP	ACTION	TOOL
PROSPECT	1	Hit the door — collect business card with magic question	Pen
	2	Phone the decision-maker — set the appointment	Phone
SETUP	3	Create Company in Water Desk	Water Desk
	4	Add Contact under that company	Water Desk
	5	Create Meeting (type: Self-Generated Appointment)	Water Desk
PITCH	6	Run the 10-step pitch — get the free trial	Brochures, TDS, Precipitator
INSTALL	7	Create Opportunity (✓ check credit requested)	Water Desk
	8	Create Work Order — attach 3 photos	Water Desk
	9	Email scheduling@drinkoptimum.com — "Install Date Request"	Email
	10	Send customer the install confirmation template	Email
	11	— INSTALL HAPPENS —	—
CLOSE	12	Two-day follow-up — IN PERSON, UNANNOUNCED	Pre-filled agreement
	13	If no close: schedule a PCM (Physical Closing Meeting)	Calendar
	14	Close → scan → email admin@drinkoptimum.com	TurboScan + email
	15	Mark Opportunity "Closed Won" in Water Desk	Water Desk

THREE THINGS THE PROCESS TEACHES

- 1. NEVER PITCH AT THE DOOR.** Your close rate drops 75% if the customer hasn't INVITED you in. Get the card, set the appointment, pitch on their schedule.
- 2. THE 2-DAY FOLLOW-UP IS WHERE DEALS CLOSE.** Most reps phone instead of visiting. Don't. The face-to-face triples your close rate.
- 3. WATER DESK IS NOT OPTIONAL.** If it's not in the system, it doesn't exist. Update same-day, every day.

COLD CALLING THE DOOR

Goal: walk in, get the decision-maker's name and card, walk out. Total time: under 2 minutes.

What you bring: a pen and a smile. *Nothing else.*

THE 7-STEP DOOR

- | | | |
|---|-----------------------------------|--|
| 1 | GREETING | "Lovely place. How are you today?" |
| 2 | PLACE YOURSELF IN THE AREA | "I have an appointment next door at ABC. I figured I'd stop in since I had a few minutes." |
| 3 | THE MAGIC QUESTION | "Who can I contact about what you do for drinking water and ice for your employees?" |
| 4 | GET THE CARD | "Does Bobby have a business card I could grab?" |
| 5 | GATHER INFO | "Real quick — what do you do for water? 5-gallon jugs? Any issues? How many coolers? Anything else?" |
| 6 | GATEKEEPER'S NAME | "What was your name?" |
| 7 | GET OUT | "Awesome. Thanks for your help. I'll give Bobby a call. Have a great day." |

WHY: "Who can I CONTACT" — the word "contact" is FUTURE TENSE. It signals you're leaving immediately. Disarms the gatekeeper instantly.

THE 4-STEP PHONE CALL

Goal: set the appointment in 30 seconds. Get to the point in 15-20.

- | | | |
|---|----------------------------------|---|
| 1 | GREETING / CLEAR THE TIME | Set expectation that this is fast. |
| 2 | RELEVANCE | Reference what you learned at the door. |
| 3 | VALUE PROPOSITION | Solve the problem you uncovered. |
| 4 | ASSUMPTIVE CLOSE | Two-option close: NEVER yes/no. |

FULL EXAMPLE CALL

"Hey JP, this is Paul with Optimum. Glad I caught you — I'll be quick. I stopped by yesterday and talked to Selina up front. She mentioned you're using 5-gallon jugs and running out, and the machines are getting nasty. Is that right?"

"We have systems that give you a never-ending supply of purified water — usually cost less than the jugs, and they're the most sanitary on the market. We work with a bunch of your neighbors."

"I'm gonna be next door Tuesday and Thursday — does Tuesday at 2 work, or is Thursday better?"

WHY: NEVER ask "Is now a good time?" — it's a yes/no that invites a no. CLEAR the time with a statement. ASSUME with two-option closes.

THE 10-STEP PITCH

This is the spine of every appointment. Memorize the order, drill the lines.

1	GREETING	"Beautiful office. Somewhere we can sit and chat?"
2	BUILD RAPPORT	How long here? Where from? Family pictures? Find common ground.
3	GATHER INFO	"Before I show you anything, let me ask a few questions."
4	GO TO THE COOLER	"Mind if we take a quick look at your system?"
5	DESTROY WHAT THEY HAVE	Open system, dog bowl, 60% workman's comp, hands-on-spigot.
6	DESCRIBE OUR UNITS	I-14 first, then PW-90. Two machines only.
7	PURIFICATION	RO + boost filter + activated oxygen.
8	INSTALLATION	"Like a fridge ice maker. Lines run like cable."
9	SERVICE	"Maintenance schedule we manage for you."
10	CLOSE FOR THE DEMO	Free trial → "If you were to do a free trial..." → "Which machine?"

THE FOUR LINES YOU MEMORIZE COLD

THE RO LINE

"Are you familiar with reverse osmosis? Known worldwide as the best way to purify drinking water."

THE SMART WATER LINE

"Have you ever had Smart Water? Our machines make Smart Water — that's electrolyte-enhanced, pH-balanced water."

THE SERVICE LINE

"We put you on a maintenance schedule that we manage for you."

THE 5-DAY GUARANTEE

"If we don't fix an issue within 5 days, you don't pay for your machine that month."

DESTROYING WHAT THEY HAVE

Step 5 of the pitch. You're at their cooler. You point out every problem.

IF THEY HAVE 5-GALLON JUGS

"This is what we call an OPEN SYSTEM. Hear that glug-glug? That's outside air being pulled into the tank through the opposite spigot. Whatever's in the air, on people's hands, on the bottle — gets pulled right into your water."

"Do you have a dog at home? You fill the bowl, two days later it's slimy. That's organic compounds reacting with plastic — same thing in this tank, except people drink out of yours."

"International Bottled Water Association says clean every 6 weeks. Nobody ever does."

*"And cross-contamination — people's sport bottles jammed against the spigot they've been drinking from for days. Viruses live on plastic 3-5 days. **This is how workplace epidemics happen.**"*

*"Who's the lucky person changing 42-pound bottles? Did you know **60% of all workman's comp claims in an office come from these jugs?** Average non-surgical back claim is around \$100,000."*

IF THEY HAVE A FILTER COOLER (CARBON ONLY)

"Carbon filtration only removes gases — chlorine, sulfur. Same as your fridge or a Brita. Lead, mercury, arsenic, chromium 6 — all stay in your water."

"Let me run a TDS test. [Test their water — usually 150+ PPM] And purified water? Should be under 20 PPM."

*"Plus your carbon filter **removes the chlorine**. Chlorine is a poison — but it's the only thing keeping bacteria from growing in the tank. Once it's gone, the tank is a Petri dish."*

***[Run the precipitator demo]** "Watch this. I added nothing to your water — I just ran an electrical current through it. Now look at what came out of solution. Cheers. Which would you rather drink?"*

THE FOUR SCARY METALS TO NAME

LEAD	MERCURY	ARSENIC	CHROMIUM 6
------	---------	---------	------------

These four roll off the tongue and instantly disgust the customer. Memorize them.

THE TWO-DAY FOLLOW-UP & THE CLOSE

THE OPENING LINE

"Hey, I was right next door for another appointment. We put a machine in a couple days ago — figured I'd pop in. How'd my technician do? Did he keep it clean in here?"

THE TRANSITION TO THE CLOSE

"Sounds like you're gonna keep it. As the next step, I just need to grab a signature to set up your account. You have a couple minutes to sit down?"

WHY: NOT "I need you to sign my contract." Not "Can I get you signed up?" — You're just **setting up their account**. Reframes the close as a friendly formality.

"FOLLOW THE PEN" — THE PAGE 2 RITUAL

Page 1 (satisfaction guarantee) and Page 3 (delivery acceptance) are easy. Page 2 is where the deal lives or dies. Point to each thing as you say it. IN THIS ORDER:

1	CUSTOMER INFO	<i>"Here's your info."</i>
2	PRICE	<i>"Your price is \$115 a month."</i>
3	BILLING FREQUENCY	<i>"We'll bill you monthly."</i>
4	TERM (sandwich)	<i>"We guarantee your price for 60 months."</i>
5	INSTALL FEE	<i>"And a one-time \$275 install fee. Sign there. Flip the page when you're done."</i>

WHY: TERM IS SANDWICHED on purpose. If they push back, it'll be on the install fee (the LAST thing you said) — way easier to handle than fighting term.

NEGOTIATION LEVERS — IN ORDER

1	WAIVE INSTALL FEE	Costs you ~\$75. Use first.
2	FREE MONTH REBATE	\$0 cost. Only on credit-approved 36+ month deals.
3	DROP TERM TO 36	Costs 2x multiplier. Last resort.
4	DROP PRICE	Kills bonus eligibility. Avoid.

CRITICAL: TERMS & CONDITIONS

LINE 8 (Early Termination): NEVER let them strike this. Striking it makes the contract month-to-month and breaks the deal economics. You will be charged 2x commission AND 2x bonus back.

Line 9 (Auto-Renewal): They CAN strike. No big deal — goes month-to-month after term.

THE COMP PLAN — HOW YOU GET PAID

TERM MULTIPLIERS (THE MAGIC NUMBERS)

TERM	60 mo	48 mo	36 mo	24 mo	12 / Mo-to-mo / Declined
MULTIPLIER	5x	4x	3x	2x	1x

THE QUARTERLY BONUS TIERS — WHERE YOU GET RICH

TIER	MONTHLY RMR REQUIRED	QUARTERLY BONUS FLOOR	ON TOP OF COMMISSION?
1	\$4,250	\$8,500	YES
2	\$5,701	\$17,000	YES
3	\$7,000	\$28,000	YES

INSTALL FEE COMMISSION SCHEDULE

CHARGE	\$275	\$225	\$175	\$150	BELOW \$150
YOU GET	\$100 ✓	\$80	\$0	\$0	-\$75 (you pay)

YEARLY HONORS

Prime Minister's Club: 250 units in a year → **\$7,000 cash bonus.**

His Majesty's Circle: 150+ units in a year → **all-expenses trip for two.**

WHY: The 3 rules of comp: Hold price. Hold term. Charge install fees. Drop term LAST when negotiating — you lose 2x multiplier instantly.

THE FIVE MACHINES (WHAT YOU PITCH)

These are the only five you actively pitch. Two of them — the I-14 and PW-90 — should be your default. Lead with the I-14, even if they say "no ice."

MODEL	PRICE/MO	COLD	HOT	ROOM	ICE	TOUCH-FREE	EMPLOYEES
PW-50	\$85	1.8 gal	✓	—	—	NO	15-20
PW-70	\$105	2.3 gal	✓	—	—	✓	20-30
PW-90 ★	\$115	3 gal	✓	—	—	✓	30-40
PW-90 CT	\$95	1 gal	✓	—	—	✓	15-20
I-14 ★	\$199	YES	✓	✓	13/45 lb	✓	40-50

★ = your default pitches

SPECS YOU MUST KNOW BY HEART

Cold water	3°C / ~38°F
Hot water	85°C / ~185°F
RO output per membrane	80 gallons/day (XL1 has two = 160 GPD)
Filter rating	1,500 gallons (RO membrane = 3,000)
Activated oxygen kills	100% of bacteria, mold, slime, viruses
"+" on model number	Includes the boost filter (always order +)

THE FILTRATION STACK (IN ORDER)

1	SEDIMENT FILTER	10 microns - removes large particles
2	GAC CARBON	5 microns - removes chlorine, herbicides
3	CARBON BLOCK	1 micron - removes finer chemicals
4	RO MEMBRANE	0.0001 micron - removes lead, mercury, arsenic, chromium 6
5	BOOST FILTER	Adds Ca, Mg, K, Na bicarbonate / raises pH

OBJECTION HANDLING

Every objection bounces back to value or reframes the question. Never argue. Never go yes/no. Always close on YOUR schedule.

"We're all set."

"You may be — but Sally said you don't actually drink the water. Most of your neighbors said the same until they saw what we do. Have you ever had Smart Water? Our machines make Smart Water. 10 minutes — Tuesday or Thursday?"

"We tried this before."

"You haven't tried ours. Our systems are the most technologically advanced on the market. Have you ever had Smart Water? Our machines make Smart Water. Just 10 minutes."

"Just send me info."

"If I email you'll have more questions than answers. That's why I do everything in person. 10 minutes is all I need."

"60 months is too long."

"60 months is our standard term." [PAUSE - SHUT UP] If they push: "These machines are extremely expensive — we typically don't break even until 30-36 months. That's why."

"What if we move?"

"We'll relocate it for free. Lines run like cable wire — fully reversible. Same for sweep, paint, redecorate."

"What if we cancel?"

"You won't want to. We have a 5-day fix guarantee — if we don't resolve any issue in 5 days, you don't pay that month. That keeps us honest."

"It's too expensive."

"Most customers actually save money compared to their current setup. Let me run the math vs your jugs."

"We need to think about it."

"Totally understand — that's exactly why we offer free trials. No paperwork, no obligation. Worst case, you get amazing water for two weeks free. Which machine would you like to try?"

"Need to ask my boss / corporate."

"Of course — let me give you the materials so you can pitch them. While that's happening, can I drop a free trial in? Costs nothing, no contract — just lets the team taste the difference while you talk to corporate."

"You're too expensive vs. the jugs."

"Compare apples to apples — our \$115/mo includes filters, all maintenance, 5-day fix guarantee, never-empty water, ice option. Your jugs cost \$X/jug + delivery + machine rental + cleaning labor + back injury risk. Want me to do the math?"

DAILY HABITS — THE WEEK OF A WINNER

MORNING	10 doors before lunch · Plan the route the night before · Dress sharp
MIDDAY	Phone follow-ups · Lunch · 1-2 appointments scheduled
AFTERNOON	10 more doors · Run any 2-day follow-ups in person
EVENING	Update Water Desk · Log CADS · Plan tomorrow's route · Drill the playbook 15 min
WEEKLY	Review pipeline · Update LTA list (always 20+) · Send weekly projection report

CADS — WHAT TO LOG DAILY

C	A	D	S
CARDS collected	APPTS set	DEMOS (free trials)	SALES closed

CADS counts deals, not units. 3 free trials at one company = 1 D, not 3.

CRITICAL EMAILS

scheduling@drinkoptimum.com	Install date requests (subject: "Install Date Request")
admin@drinkoptimum.com	Signed agreements (subject: [Company Name] Agreement)
customerservice@drinkoptimum.com	Service tickets for current customers

STUDY DRILL — HOW TO USE THIS DOCUMENT

Week 1: Memorize the 4 sacred lines (RO, Smart Water, Service, 5-Day). Memorize the 10-step pitch order. Know the 5 machines + prices.

Week 2: Drill the destruction scripts (jug + filter cooler) out loud. Practice "Follow the Pen" with a friend. Run mock objection drills.

Week 3+: By the time you arrive at training, recite the full 10-step pitch cold. Know every install fee scenario. Track CADS daily.

VOLUME OF ACCOUNTS FIXES ALL WOES.

20 doors a day. Every day. The rest follows.
